Welcome

Welcome to Slough & Langley College. We are dedicated to creating high aspirations for our students and encouraging you to pursue career excellence as you work toward your goals.

Our college is committed to providing a career-focused, industry-ready education. With highly skilled staff, industry-standard facilities, and strong partnerships with employers, we ensure that you are prepared to meet the demands of the modern workplace. Our inclusive culture and focus on practical, hands-on learning equip you with the skills and confidence necessary for immediate employment and future academic pursuits. You can apply online or attend our next Open Event to explore all that Slough & Langley College has to offer. We look forward to welcoming you to our college and helping you create and advance your future.

Gillian May
Group Principal and CEO

Slough & Langley College is a dynamic learning environment offering a diverse array of subjects and apprenticeship opportunities.

Our staff, with extensive industry experience, provide education that prepares you for further study or entry into the workforce. Our modern campus features state-of-the-art facilities and resources to equip you for your next career step. We pride ourselves on being an inclusive and vibrant institution, committed to creating a safe and supportive environment. Our comprehensive student support includes pastoral care, counselling, and enrichment activities. Attend one of our Open Events or meet our School Liaison team during their school visits to learn more about Slough & Langley College. We look forward to welcoming you!

Anne Entwistle
Principal

How to Apply

Your Step-by-step Guide to Studying at Slough & Langley

Step 1: Choose Your Course

We offer a wide range of courses at all levels – if you're still not sure, give us a call on **01753 793288** or email **admissions@windsor-forest.ac.uk** for independent advice.

Step 2: Apply

Apply online at **<https://www.langley.ac.uk/study/>**. You shall receive an email to confirm we have received your application.

Step 3: Attend Your Interview

You will be invited to book an interview, where you will discuss your course choice and plans for the future. This will also give you the opportunity to ask any questions you may have too.

Step 4: Offer

Following a successful interview, you shall be made a conditional offer via email.

Please note: This can take up to 14 days. To accept your conditional offer, please log back into your Student Portal. You need to accept your offer to receive your invitation to enrolment.

Step 5: Enrol

You shall be sent steps on how to enrol onto your chosen course the Summer before you start with us and you will need your exam results to be able to enrol in August. If your results are better than expected or you didn't do as well as you hoped, please do not worry, we can find a suitable alternative for you.

Step 6: Start College

We look forward to welcoming you in September!

Study Programme

Our study programmes combine your chosen subject with a range of transferable skills to enhance your learning and help you develop. We will equip you with the skills and knowledge required for progression on to university, apprenticeships or employment.

English & maths

Development of English and maths skills is essential for successful progression. We will support you to ensure you leave us having achieved the best grades you possibly can. You will be timetabled into a class that is the right level for you based on your grades and prior experience. All students will be working towards attaining a grade 4 or above at GCSE.

Already Achieved a Grade 4 or Above at GCSE?

You will not be required to study additional English and/or maths.

Achieved a Grade 3 at GCSE?

You will be enrolled onto a GCSE course and will work towards gaining a grade 4 or above as part of your study programme.

Achieved Lower Than a Grade 3 at GCSE?

You will be enrolled onto a GCSE course or another appropriate English and/or maths qualification at an appropriate level.

Practical Lessons, Lectures & Tutorials

These planned activities take place on our extensive campus and will help you develop your independent study skills. You will focus on extending your practical skills and knowledge to gain a strong understanding of your chosen subject area.

Personal & Professional Development

Employer links are important and help you focus on gaining skills you need for your future career. Your study programme may include visits from industry professionals or trips to business venues and workplaces. College life will also help you develop the skills required to be successful in your chosen career. Good punctuality, attendance and commitment to your study programme is an expectation.

Volunteering

Involve yourself in additional activities that will enrich your development and boost your CV. Our Student Support team can help you find a volunteering opportunity that suits you.

Industry Placement & Work Based Skills Week

Most students will undertake an Industry Placement as part of their course. All students will participate in a Work Based Skills Week in partnership with industry.

Please note: Some subjects have specific additional entry requirements please visit these subject courses on our website to find out more.

Progression Routes

T-LEVELS

THE NEXT LEVEL QUALIFICATION

T Levels are qualifications for students aged 16 to 19 living in England who have finished their GCSEs.

Each T Level is equivalent to 3 A Levels and helps you to develop the knowledge and practical skills to enter the workplace or progress onto further study.

T Levels offer you more practical work experience and industry placement hours as part of your education than any other qualification currently available, except for apprenticeships.

T Levels, A Levels, and Apprenticeships have key differences in terms of their focus and structure.

- **T Levels** are designed to prepare learners for skilled professions or further study. They consist of 80% classroom-based learning and 20% industry placement, providing practical work experience. T Levels are equivalent to 3 A Levels and offer a broad understanding of sector-specific issues and occupational specialisms.
- **Apprenticeships** are for individuals who want to learn a specific occupation. They involve 80% on-the-job training and 20% classroom-based learning. Apprenticeships are suitable for those who have a clear career path, are at least 16 years old, and want to earn a wage while learning.
- **A Levels** are focused on academic education and are typically chosen by learners who want to continue their academic studies.

These distinctions highlight the varying emphasis on practical skills, industry experience, and academic education in each pathway.

Are T Levels included in the UCAS tariff?

UCAS tariff points are allocated to T Levels in the same way they are with A Levels.

UCAS points are only allocated to the **overall T Level grade**. Students must achieve at least an overall pass grade to receive UCAS points.

UCAS tariff points	T Level overall grade	A Level equivalent
168	Distinction*	A* A* A*
144	Distinction	AAA
120	Merit	BBB
96	Pass (C or above on core component)	CCC
72	Pass (D or E on core component)	DDD

Beyond the Classroom

Slough & Langley College's bright modern building has a positive, vibrant atmosphere with lots to keep you busy.

It is a place where you can enjoy learning, build your confidence, make new friends and prepare for your future career. From sports and field trips to Industry Placement and guest speakers, you'll have plenty of opportunities to develop the skills you need for life after work or further study.

Vibrant Student Union

Our Student Union offers many opportunities to get involved. You could become a student rep or simply enjoy the many activities on offer. Show up, speak up and tell us what you think! Play your part and make a difference to College life.

Get Fit & Stay Active

You'll have access to the onsite gym, Absolutely Fitness, and a recently renovated sports hall and conditioning suite.

Find out more about our facilities

We recognise that our students come to us with a range of different skills, abilities and experiences. Additional Learning Support is available across the College to help students with evidence of declared learning needs.

If you would like to speak to a member of our ALS team, please call us on **01753 793000** or email learning.support@windsor-forest.ac.uk

Find out how we can support your individual learning needs

Student Services

These include:

- Student Welfare**
- Counselling**
- Industry Placement & Careers Advice & Guidance**
- Tutor Support**
- Financial Assistance (Discretionary Learner Support Fund & 19+ Learning Loans)**
- Additional Learning Support (ALS)**

Students at Slough & Langley College often comment on how supported they feel during their time with us, both with their College work and personal life.

As a Slough & Langley College student you will have access to a wide network of support services to help you make the most of your time here.

Visit our website to find out about the skills you will gain on our courses and the employers we work with.

Apprenticeships

Gain real work experience, develop your professional skills and get the training you need to secure a successful future in employment.

What is an Apprenticeship?

An apprenticeship is a job with training to industry standards. An apprentice is a paid employee who is training on the job and involved in an educational programme.

The apprentice gains the skills, knowledge and behaviours that they need to forge their career. This programme supports businesses to train the future workforce. An apprentice could be someone new to the industry or could be an existing member of staff.

As an Apprentice You Will

- Work alongside experienced staff
- Earn a wage and get holiday pay
- Gain job-specific skills
- Get time for study related to your role

You are required to stay in education, employment or training until you turn 18 but this can include being an apprentice. Apprenticeships have a functional skills requirement in English and maths but learners who already have obtained the level required will be exempt from undertaking them. An apprenticeship is a real job where you will be employed full-time for the duration of your qualification. Apprenticeships also include an end-point assessment. It's an assessment at the end of your apprenticeship to make sure you're fully competent in your specific occupation.

Our Apprenticeships
